

The 565 was designed and conceptualised via customer and dealer feedback. This feedback resulted in Haines Hunter seeing a strong demand for a mid size trailerable fishing boat that would also double as a family cruiser. So Haines Hunter put the 565 into production with some 'R' treatment and out came the all new 565R

The 'R' Range of Haines Hunter boats hold legendary status amongst boaties, and is the most popular of the Haines Hunter range. The 'R' series offers a more sporty appearance, lower profile cabin, and superior vision at the helm, larger cockpit space for fishing and family fun with refined interior finishes.
