Fuel.....7,000 gal (26,500 L)
Water.....1,160 gal (4,400 L)
Grey Water.....500 gal (1,900 L)
Black Water.....500 gal (1,900 L)
Range.....4,000 + nautical miles

The Bering 77 is a very athletic and graceful long range motor yacht. She displaces 364,000 pounds and shares the bulbous bow, hard chined hull sides and twin gondola skag underbody of her sister ships. Her bow is very high off the water and prominently features two large pocket anchors tucked into the gorgeous stainless steel backing grill. This impressive bow height translates into a dry ride and creates very tall interior proportions allowing for over 7'2" headroom throughout.

@ 2016 Bering Yachts

The saloon has built in outboard seating and a large dining table. Going up a few steps you arrive at the galley which in turn transitions into the pilothouse. The pilothouse is ideal for navigating and running the vessel. The large interior volume lets each owner select the number of cabins and how they are layed out in a wide variety of choices. The Bering 77 has a range of over 4,000 miles at a cruising speed of 8 knots and travel continuously for several weeks nonstop – letting her crew enjoy the journey while crossing the seas.
