## BRIG Navigator Series - Centre Console

The BRIG Navigator range has been designed and built with adventure in mind. This range slots between the Falcon and Eagle series, a 'cross-over' concept that appeals to those who want to challenge the elements. Its solid construction and seating provides the pinnacle of safety and stability when the Navigator is pushed to the limit. The centre console variant is the very latest in the Navigator range, offering maximum deck space and flexibility for a wide variety of applications.
