# THE SAFEST POWERCAT IN AUSTRALIA

## AUSTRALIAN MADE, DESIGNED BY EXPERTS

Nothing beats exploring Australia's beautiful coastal waters and wetting a line off our shores when you are in the safe and expert hands of the Australian-built **BREAKSEA** series. From design to handover, every vessel is custom-made. Our Shockwave craftsmen are experts in capturing the imagination of seafarers. As they guide you on a journey to create your ideal Breaksea you will choose from multiple cabin designs and a world of other options to see your dream take shape. At Shockwave, we integrate the latest technology and processes to bring CNC customisation to the beauty, strength and lightness of vacuum infused fibreglass. Trusted by sea rescue groups nationwide our hulls have earned their reputation as the safest powercats in Australia.

## YOUR IMAGINATION - OUR CRAFTSMANSHIP
