Cooper 60 - Luxury living with push button sailing

Kokomo's expansive teak decks and pilothouse are great areas for watching magical summer sunsets. Couple this with her stunning teak interior and you have a yacht that stands out from the crowd. She is a GRP Cutter rigged blue water pilothouse sloop manufactured for the harsh North West Pacific environment. Her low aspect cutter rig employs Hood hydraulic stowaway mainsail, hydraulic furling genoa, and furling staysail. Five hydraulically powered winches control lines to the cockpit. The pilothouse has a second helm position with all essential controls. Guests have a settee and table where they can be part of the sailing experience. Her open saloon with rich teak furnishings seats 8 around a custom-made dining table with compass rose inlay. To port is the well-positioned galley where the chef can freely create gourmet meals. The galley features 2 sinks, stainless steel stove, a large refrigerator, and a below counter freezer. The navigation and office area to starboard has expansive countertops for charts and navigation. The passageway aft has 2 sea berths with a walk-in engine space opposite. Further aft is the owner's cabin containing 2 berths, a dresser, and its own en suite. Forward of the main saloon is another head with a shower and a double cabin with a settee and dresser. The 165hp Perkins powers the vessel to a comfortable 8 knots giving a range of well over 1700 miles. The 400 gallons of freshwater is supplemented with a 700 gallon per day Watermaker. Laundry and showers pose no threats to your cruising pleasure. Additional equipment includes 2 generators, a hydraulic bow thruster, and a get-home system that will power Kokomo to about 4.5 knots. Price reduced to US\$390,000 (Approx. NZ\$667,000 - subject to foreign exchange rate) excluding Taxes and Duty
