Moulded plastic paddle kayak

Dive tank

Assorted lines and ropes and fenders.

COMMENTS:

This vessel presents in near new condition and has been very lightly used, mainly under motor. Overall the vessel is very beautifully executed and finished.

This is a quick, safe and spacious cruising home, light, airy and containing lots of storage space and tankage. The electronics inventory is quite basic but better to add things you like than to be stuck with things you've paid for but don't like.

This vessel represents an excellent opportunity to acquire a near new boat from a very respectable yard already in one of the world's most diverse cruising grounds.

**PRICE: AU\$575,000**
