Description

CNB 64 Luxury Blue Water Yacht

Kimosabi has just completed a tour of the Caribbean after an Atlantic crossing and now lies on the Eastern US seaboard ready for her next adventure.

The Ultimate luxury performance cruiser melding Pininfarina's internal design opulence as the company behind iconic carmakers like Ferrari, Alfa Romeo and Maserati; with Farr's racing pedigree and its performance cruising hull designs.

This yacht is in a class of its own challenging the Swans and Oysters of its day on affordability but with the same super yacht build quality, elegant yet practical fit out and race ready for a keen crew or easily handled for short-handed passage making.

With over 100 units delivered to discerning sailors and fans of luxury, CNB yacht builders has built up unrivalled experience while taking on board the highest technological standards. This know-how has been recognized with numerous prestigious international awards and now CNB sits within the international Beneteau Group. This pinnacle of their yacht register is an amalgam of its French and Italian design heritage but with global backing.

Kimosabi presents the opportunity to join this select global CNB family and cruise the world in great comfort and style at a fraction of its current US\$2-3 million replacement cost.

Kimosabi is a spacious 5 cabin plus 5 head yacht sleeping 10. She has a large C-shaped galley with an open saloon seating 8 for dining and a duo of built-in lounge chairs plus a generous chart table.

Combining a long list of features and inclusions for liveaboard, Kimosabi is the opportunity to step aboard and escape the shore for the crystal waters of the Bahamas and the Caribbean and beyond to the Pacific or the Med.
