

2021 Dufour 48 Catamaran – Stock Model

Dufour Catamarans was formerly owned by Dufour Yachts but was sold to the Fozzy Group in late 2020. The Fozzy Group is one of the largest trade industrial groups in Eastern Europe and also owns the very successful Under the Heavens Sailing Cruises in Croatia.

This beautifully constructed catamaran is built in Italy by Italian craftsmen and designed by the revered and world-famous Italian naval architect Umberto Felci. The contemporary design ensures a combination of style and performance to make for the perfect cruising catamaran. The main mast has been placed towards the stern to allow for larger headsails, and the boom is more angled than in most monohulls. The self-tacking jib combined with the mainsail creates a total sail area of over 120m².

PERFORMANCE
CRUISING YACHTS

The Dufour 48 Catamaran has beautiful outdoor living areas designed specifically for comfort and entertaining.

The huge flybridge with stair access from both starboard and port sides provides a separate area to relax and lie in the sun. There is a wide L-shaped sofa at the back, and in front of the helm, you'll find a double sunbed.

The central helm station is compact, with winches nearby so that the catamaran can be operated entirely from the flybridge.

2021 Dufour 48 Catamaran Inventory
