

BRIG NAVIGATOR 24 - CENTRE CONSOLE HARD TOP

The BRIG Navigator range has been designed and built with adventure in mind. This range slots between the Falcon and Eagle series, a 'cross-over' concept that appeals to those who want to challenge the elements. This centre console variant was designed to replace the acclaimed Navigator 730, offering maximum deck space, below deck storage and flexibility for a wide variety of applications. The perfect fit for fishing, water-sports and tender applications, this hull is available with or without a rear facing helm seat lounge.
