Navigation Gear	GPS/Chartplotter, Radar, Autohelm, LED Nav Lights, Compass
Ground Tackle	Plough With Chain And Rope
Capstan	Electric

10m Stabicraft

"Agape" is custom designed by naval architect Dick McBride, built to survey by Stabicraft on behalf of her current owner, and was very well-equipped for extended trips around the southern South Island and Stewart Island. Now extensively travelled, she comes with an alloy trailer and a transferable secure trailer park at Nelson Marina. The main engine is a brand new Honda 250 VTEC with exactly zero operating hours. With a huge inventory and many additional features, this is a serious sea boat. Sole Agency- please contact Rob Greenwood on 0272 245 172 or the Nelson Office 03 548 1202.

Features:

Stabi "D" shape extended pontoons (newer style); sharp V entry and 15 degree aft sections for good weight carrying and great fuel economy; excellent sea boat; cabin foam insulation beneath linings for warmth and quiet; new 230V inverter (to be fitted); cabin roof solar water heater and large solar panels; stove/heater diesel tank; game fishing chair mount; shock absorber helm seats; mostly parked undercover at inland location; covers and clears; boarding ladder; etc...
