

"Skyfall" Beneteau Sense 50

"SKYFALL" BENETEAU SENSE50

Is this the ultimate couple's owner cruising yacht? With two cabins complete with ensuites and an office, this yacht can be operated by just one person, thanks to all electric winches and the Dock and Go joystick steering for those tight marina spaces. If accommodation is required for more than 2 couples, the office provides a single berth, the main saloon and cockpit can electrically lower their tables for 2 more each and a single berth can be created in the port lazarette.

Factory fitted with long range fuel (840L) and water (730L) tanks, this boat was fitted out with long range cruising and comfort in mind. Twin rudders and twin helms and no general accommodation aft, allows the cockpit to sit lower and hence requires only 3 steps down to the saloon!! This configuration provides two large lazarette storage lockers and easier access to engine bays, gen sets, air conditioning and a multitude of pumps.

Electric blinds in the main saloon are easy to operate and the hidden led lighting allows for different moods. The long galley bench provides for assistance in the galley and easier meal preparation and the ample saloon space makes living aboard a real pleasure with abundant headroom and light throughout.

The Sense 50 is a delight to sail in most wind and sea-states and easy to operate.
