BY **SUNSTREAM**

## DISCOVER FLOATLIFT, THE MOST POPULAR BOAT LIFT SOLUTION IN THE WORLD

Simply tie your boat lift to almost any place you can tie your boat: slips, side-ties or even a mooring buoy – **Floatlift is 100% Portable!**

- Launch or lift your boat in 30 seconds
- Never antifoul again
- Remote-controlled operations
- Solar or AC power options
- Easier to park your boat
- Save on boat maintenance

- Better boat resale value

**FLOATLIFT™ IS DEVELOPED BY SUNSTREAM™, THE LARGEST AND MOST TRUSTED PORTABLE BOAT LIFT AND HOIST MANUFACTURER.**

**FLOATLIFT IS AVAILABLE FOR ALL TYPES OF BOATS**

**EASIER TO PARK YOUR BOAT THAN A CAR**

The Sunstream FloatLift™ provides unmatched speed, security, versatility and ease of use. Powerful hydraulics pull the foam-filled polyethylene floats under the boat in as little as 30 seconds with the press of a remote control.

**ADVANCED TECHNOLOGY AND MINIMALIST DESIGN**

The Sunstream FloatLift™ is designed for fresh or saltwater, with an aluminium frame, stainless steel hardware, marine-grade hydraulic cylinders with stainless shafts, and marine-grade hoses. In the raised position, the virtually unsinkable floats are automatically secured with the patented GravityLock™ system. The floats also make it easy to access your hull and prop for cleaning and maintenance.

The rubber-capped SuperBunks™ are not only durable but provide the ultimate cushioned support for your hull.

## **BUILD YOUR OWN FLOATLIFT**

With so many accessories available, FloatLift is easy to customise to suits all boat owner needs:

- SwiftShield™ Automatic Boat Cover
- HoverCover™ for automatic protection from sun, rain and debris
- Motorstop for positioning fore and aft
- HandsFree™ Controller (patented and patents pending)
- PowerPack shelves for mounting PowerPack to guide-on or dock
- Universal LED Underwater Lights
- Tournament Boat Bunk Bracket
- Catwalk – access to boat
- Pontoon Kits with and without Ballast System

## **THE FLOATLIFT GOES ALMOST ANYWHERE YOU CAN TIE YOUR BOAT**

Designed to set you free, the FloatLift typically needs just 30cm of water under the keel or skeg and the foam filled floats can support the boat on the soft seabed even if the tide goes out.

FloatLift's low-profile floats split high waves so the lift can be used practically anywhere you would moor your boat. Powered by a solar option means you are ready for adventure anywhere.

## **FLOATLIFT IS AVAILABLE FOR ALL TYPES OF BOATS**

## OPTIONAL COVER

FloatLift has an optional hover cover available to protect your boat against sun, weather, bugs, dust and leaves.

## REMOTE CONTROL

Operate your FloatLift with the push of a button. Your docking operation will not take more than a minute.
