Schionning 44P "Alaskan"

44 foot Schionning Alaskan Power Catamaran recently motored back to New Zealand from the Kiwi builder's factory in Thailand; Pantawee Marine. This is a well proven blue water/coastal cruiser, fully equipped with all the necessary features and electronics expected to undertake long passages safely and comfortably. **This is a new boat with delivery hours only.** A striking looking boat that includes a fully enclosed flybridge which features ample seating for family or friends and a fully equipped helm station of Raymarine electronics required for blue water or coastal cruising. Access to the flybridge is via a wide, amazing looking spiral staircase from the cockpit. All weather protected by the expansive cockpit roof. The saloon is spacious and includes seating for six around the dining table. The galley features a gas oven and a two burner cook top, twin sinks, microwave, fridge and plenty of bench space, cupboards, and drawers for storage. The Eberspacher diesel heater in the saloon seating area makes for comfortable winter cruising. All inside areas have fans for summer cooling. The two main cabins include queen sized double Island beds. Hanging cupboards provide ample clothes storage. Showers, heads and dressing/hand basin areas provided in each hull, plus a further shower to the stern. The port hull includes an additional double bed at the stern. Thanks to the Fine Hull shape this Cat cruises comfortably at 12 knots and burns just 1.4L per NM across both motors. She would suit any ocean cruiser and ideal for the retiring Sailing couple looking for a more easily managed vessel. To view or for further information call Dave on 027 027 11365
