

Aristocraft

BOATS + ACCESSORIES

Aristocraft is a proudly Australian owned business supplying quality inflatable boats to the marine industry for over 25 years. Over that time, through innovation and improvements in manufacturing and materials, the brand has evolved into a name synonymous with reliability and quality. With our vast range of boats in a variety of sizes, you will be sure to find one that will fit your specific needs to get out on the water.

SEAROVER

FULLY WELDED DEEP V ALLOY HULL

SEAROVER

LUXURY WITH A RUGGED QUALITY

The SEAROVER range of inflatable RIBs are our premium model, manufactured using FRENCH ORCA HYPERLON for maximum durability from the harsh Australian elements. The aluminium fully welded powder coated deep V hull is class leading and built for maximum durability and strength, while still being lightweight for ease of handling. Built with a 3mm thick double aluminium deck to keep your feet dry with selected models having a versatile bow locker for anchor and or dry storage. The high quality and premium materials used in the manufacture of these boats provides great looks with the strength and durability to work hard. Flush mounted non-return valves – Powder coated hull – Removable aluminium seat – Welded lifting points – Oar securing points – Lightweight rubbing strake – Heavy duty foot pump – Oars and repair kit.

Introduced into the Searover range is the bow locker options in both 2.9 and 3.6 meter boats. With the 3.2 meter being optional. Bow lockers are handy for gear and anchor storage.

FENDERS

The Aristocraft fenders are very versatile; they have been used as on board fenders, used to line pens and even sailing markers and buoys. The most impressive part about the Aristocraft Fenders is the fact that you can repair them even while you're on the water. Aristocraft Fenders come in many sizes - great for super yachts.

MODEL	FENDER DIMENSIONS	COLOUR
