

## Vessel Specification

# 'PENULTIMATE II' 2011 Princess 85 Yacht

### Overview & key notes

It is our pleasure to present Penultimate to the market for the second time as exclusive agents. This 2011 model is widely regarded for her stunning interior and quality ownership history including professional maintenance in Australia since 2014.

The Princess 85 was a hugely popular model as she offered a genuine step up from the those models in the 70ft range. The salon, galley, flybridge and crew quarters are noticeably larger than her smaller peers of the time making her more conducive to longer periods of cruising with a full boat of guests.

Penultimate was the later version of the Princess 85, featuring stabilisers and a hard top with an electric sunroof that those earlier (circa 2009) did not. Her option list is extensive and includes all the items one expects of a luxury motor yacht this size. Of note is the satin walnut interior which is very timeless and offers a very balanced palette generally pleasing to most tastes.

Penultimate comes to the market with low hours and great condition and is available for viewings on request.
