

Vessel Specification – 2006 Blackwatch 260 Flybridge

Descriptions

The Black Watch 260 Flybridge is extremely well appointed vessel at just over 8m boat. It comes complete with many of the standard features we're used to seeing on much larger boats.

Not only is the flush deck a winner, but the extra 100mm below the cockpit sole creates an extremely spacious engine room as well as providing additional buoyancy.

This extra space below deck allows amazing versatility when it comes to power options with this vessel equipped with the largest Volvo Penta D6 at 350HP, giving you a top speed of 31 knots and a very comfortable cruise at 23knts.

In the bow is a big double berth that has good storage capacity below. Sidepockets are located above the vee-berth and reading lights are located on the forward bulkhead. Vinyl headliner is used throughout, and an overhead deck hatch provides natural light and ventilation.

Just aft of the vee-berth on the starboard side is a fully-enclosed head fitted with an electric toilet and plumbed holding tank.

Blackwatch's are renowned for their sea-keeping ability which is why they are so popular in off-shore conditions with a deep-V hull design and large bow flare for a comfortable and dry ride in all conditions. The flybridge offers excellent visibility for navigating while cruising or fishing.

Highlights

- Super neat and tidy boat in great condition for age
- 5m Out-Rigger poles, rockets launches and all the expected game fish gear.
- Plumbed live bait tank.
- Bennet marine 18x12 trim tabs with the Auto trim pro module
- Stern drive replacement in 2022
- 2 x Lithium house batteries
- Blackwatch are known for their quality and attention to detail, with a reputation for craftsmanship and longevity.

Principal Information

Builder:	Deep Vee
Built / Refit:	2006 Blackwatch 260 Flybridge
