Nordsee 52: A Strong Open-Ocean Yacht

Built by Dübbel & Jesse for an engineering company which sailed her for 15 years. A second owner used her to travel the Arctic and North Atlantic. The vendor purchased her in 2014. He carried out upgrades and equipped her for a circumnavigation which ended in NZ during COVID. The large comfortable interior presents very well. Unfortunately, storage has taken a toll on the exterior which needs some attention. She's a well-equipped vessel with a 1.6-3.6m lift keel, solid alloy hull and accomm. for 8. With some love, she could again be a strong open-ocean yacht. **Upgrades include:** Echotec 140 Lt/Hr Watermaker (can be inverter driven when engine is running); Main engine rebuilt (1000hrs since rebuild); Hydraulic motors overhauled; New Anchor and 80m chain; New fridge and freezer (vacuum-isolated); Victron Multiplus 3000 Inverter/Charger/Shore; 2 Superwind generators; Partly new electrics; New Mainsail + Cutter; Stainless cockpit roof with Solar; New Andersen winches; AGM batteries (2019); Icom SSB with Pactor 4; Anchor whip on bow; New Spin/Whisker pole telescopic New bilge pumps; Last antifoul + engine service 2021. **Imported to NZ (tax paid) Price: € 90.000 EUR (inc GST) For more information, contact Dan: 0224 326 007**
