Vessel Specification – 2016 Azimut 60 Flybridge

Description

Built by world leading shipyard Azimut Benetti, the 60 was a very popular model globally with numerous selling here in Australia. She features 3 luxurious cabins and 2 bathrooms with the master being full beam with a lounge suite to starboard.

On the main deck you have all the amenities of much larger boats including a fully dining setting, wrap around galley and a huge lounge suite on entry from the cockpit. While there is zoned reverse cycle air conditioning throughout the boat, there is also great natural ventilation this deck because there are two electric windows forward and of course the large main salon door.

Moving outside and there is a spacious cockpit with a dining table with capacity for 6 guests. Alongside is the generous hydraulic hi-low swim platform which has capacity for a jet tender, but when removed is also fantastic for socializing and swimming.

Up top is the flybridge which is huge because Azimut take this space right to the back of the boat. This means there is the normal dining and forward lounges, helm and amenity station as well as a massive lounge aft. It hard to match at this length.

Powering this 60 flybridge are two MAN 800hp shaft drive diesel engines which provide a cruise of 22 to 28 knots and a top speed just over 30 knots.

Highlights

General highlights

- Seakeeper gyro stabilizer
- Low hours - 625 at October 2024
- Detailed service history
- Hydraulic platform with capacity for a jet tender
- Joystick control
- Competitively priced for a 2024 sale

Maintenance summary

- October 2024 – comprehensive vessel detailing
- February 2024 – main engine cooling system servicing
- January 2024 – fire system servicing
- March 2023 – vessel anti fouling
- March 2023 – engine and generator servicing
- June 2022 – Seakeeper gyro stabiliser water pump replacement
- July 2022 – miscellaneous engine and steering servicing
- January 2022 – engine and generator servicing
