## Vessel Specification – 2008 Sealine T60 Flybridge

### Description

At 60 feet, it's remarkable how much renowned UK builder Sealine has packed into this T60.

One of the more obvious features of the T60 is the accommodation where the 3<sup>rd</sup> bedroom has 3 single beds plus a pullman bed (total 4). This means there is accommodation for 8 guests whereas normally at this length it would be just 6. Of course, some vessels this length only have 2 bathrooms as well, but not the T60 as she has 3 bathrooms, so all guests are very adequately catered for here.

Another great innovation is the design of the main deck. There is an open aft galley with an adjoining round dining table and this area opens out onto the cockpit as well. The concept of indoor-outdoor living is truly captured here.

There is of course a very unique bonus here that only the Sealine T60 offers, it's the extendable cockpit. Not pictured, the aft section in fact moves back out over the swim platform opening this space even further.

The flybridge is also a winner. Upon top one gets a feeling the T60 is a bigger boat because they have placed a central amenity station in the middle of a huge dining table and other lounge areas. It's not only practical but it means guests can separate or be social together.

This particular Sealine T60 is powered with the Caterpillar C15 850hp diesel shaft drives engines with bow and stern thrusters. Cruise is around 25 knots and her top speed is around 31 knots. This boat is very sturdy under way with great seakeeping qualities and she manoeuvres well with her shaft and thrusters when the wind gets up.

Viewings are in Newport NSW by appoint.
