Catalina 36 Mark II

The **Catalina 36 MKII** is a 36'4" (11.07m) cruising sailboat designed by *Frank Butler*. "Candescence" was built in 1997 by *Catalina Yachts* (United States). She is the wing keel version of the Catalina 36 MKII and has a short draft of just 1.4m allowing access much closer to shore. Powered by a Westerbeke Universal 30hp diesel engine with 900hrs on the clock. The vessel has a great layout - there are two cabins, one forward and one aft, both with doors to separate them from the saloon. The aft cabin has a massive full beam berth and the forward cabin has a good size V berth with a custom mattress for better sleep on extended trips away. The saloon features two dinettes, both of which convert to berths, double berth to port and a single berth down the starboard side of the saloon. The cockpit has a walk through transom, wheel steering, and an instrument cluster at your fingertips. Features squabs for comfortable seating, a fold-out table, and a spray dodger connectable to the bimini for optimal shade. Some of the features to note on Candescence...

- New North Sails headsail and Mainsail 2023;
- Rigging replaced in 2023;
- Garmin GPS/Plotter replaced 2020;
- Garmin Autopilot fitted 2024;
- 3 x 120 Amp hour house batteries replaced 2023;
- New 5kw Diesel heater;
- 2 x Solar panels mounted above the bimini;
- Inflatable tender with a 2hp Yamaha
