BACKGROUND

The Hanse 470e is a 47-foot performance cruiser designed and built for bluewater sailing. The 2007 Owner's version features a highly desirable 3-cabin layout, with a spacious master suite forward and two queen-sized aft cabins. The 'e' for 'epoxy' provides exceptional hull strength and stiffness making her faster and more responsive - especially in light airs. The sleek hull design, flush deck, self-tacking jib and convenient storage combined with her ease of handling make her a popular choice amongst cruisers.

Launched in 2007, *Taloha* has spent most of her life in Sydney as a Club Racer, however recently she underwent an extensive re-fit to prepare her for offshore cruising. Several significant equipment upgrades have been added and concluded with a fresh coat of Antifoul and polish.

Taloha was repowered in 2012 (Yanmar 55hp) and had a new sail drive installed in 2024. All major electrical wiring and power systems have been professionally installed. All standing and running rigging were replaced in 2024 along with several other upgrades including Muir anchor windlass and remote.

Taloha's 680w solar array feeds to a Victron solar controller, 3000w inverter and Cerbo GX power management system; all of which were professionally installed in 2024. All (7) batteries were upgraded in 2024.

Taloha offers a stylish and practical interior layout and a thoughtfully designed L-shaped galley. The light and luxurious interior offer separate lounge and dining areas. This Owner's version provides an enormous master suite forward with ensuite and two spacious double cabins aft.

The spacious cockpit provides a luxurious covered outdoor living space with upgraded canvas and awnings for entertaining or relaxing amongst friends. When lowered, the large swim platform opens the aft deck to another oasis. The yacht offers phenomenal storage with a dedicated bow locker and deep lazarette locker behind the twin helms.

The cockpit is fitted with upgraded Garmin GMIs and B&G displays, a colour chart plotter, bow thruster controls and anchor controls.

On Deck

The teak deck is clean and uncluttered, with mid-boom mainsail sheeting, a solid boom vang, flush hatches and recessed deck cleats that maximise lounging space underway or in port. All halyards and sheets are neatly integrated and run aft to jammers and electric winches within easy reach of the twin helms.

UNDER SAIL

Taloha is easily handled short-handed, with 3x electric cockpit winches, a self-tacking jib, furling headsail, and triple-reefed main with in-line reefing. The L-shaped keel, high-performance Jefa steering, and self-aligning rudder bearings deliver superb balance and responsive handling. All controls are centralised at the twin helms, making sail adjustments effortless, even when sailing alone. In light airs, Taloha's cruise speed is above average.

COCKPIT LAYOUT

The cockpit is spacious and well-organized, with twin wheels, electric winches, and all lines led aft for easy sailing, while wide seating, a large folding table, and clear decks make it perfect for relaxing or entertaining guests in comfort. Flush led control lines lead aft via Spinlock jammers to power winches positioned close to each helm, enabling the helmsperson to control the boat alone.

HIGHLIGHTS & FEATURES

- Fibreglass 'epoxy' construction with teak deck and cockpit
- 2012 Yanmar 55hp (low hours) with new sail drive (2024)
- Standing and Running Rigging replaced (2024)
- New Muir windlass, Rocna anchor and ground tackle (2024)

- Garmin GMI x 3, B&G MFD x 2 (new 2024) at helm stations
- Victron Cerbo GX, 3kw Inverter and new switch panel (2024)
- Starlink Router and Dish - (2024)
- New foredeck hatches and underwater LED hull lights (2024)
- Comprehensive offshore safety equipment (includes RFD life raft)
- Washing machine, toaster, kettle, microwave, Nespresso coffee machine.
- Antifouled / Polished - May 2025.

Interior

The saloon is bright and elegant, featuring a spacious dining area to port and a cosy conversation lounge to starboard. Natural light flows through flush overhead hatches and hull windows, and is complemented by suede upholstery and warm timber finishes. Headroom is generous with impressive storage, making Taloha perfect for family living.

Subtle LED interchangeable mood lighting has been fitted throughout the interior with atmospheric mid-level windows providing an outlook to the water.

ACCOMODATION

The stylish interior offers a forward master cabin with a luxurious island bed, storage drawers, fitted cabinets, and a private head with shower. Two spacious double aft cabins share a large head with separate shower. The lounge room styled dining area to port and separate starboard settee may serve as extra berths.

All cabins feature upgraded LED lighting, 240V outlets, wardrobes, and opening ports for ventilation. A single saloon settee berth adds flexibility, while newly installed electric toilets and LED courtesy lighting enhance comfort throughout. (A washing machine is fitted in the port aft cabin.)

GALLEY

The L-shaped forward-facing galley comprises a 2-burner stove and oven with ample lockers, drawers, and under-counter storage. Corian bench tops and sinks with fresh filtered water, front-opening fridge, and a top-loading freezer. Crockery, utensils and several 240v appliances including a microwave, toaster and Nespresso machine provide additional conveniences.

NAVIGATION

The navigation station is located below the companionway to port. The main switchboard and wiring have been upgraded. New equipment includes a Garmin VHF radio and handheld, an iPad and AIS transceiver. A Starlink Router and dish are ready for installation. All new ground tackle and anchor windlass controls are complemented by B&G displays and a table-mounted cockpit chart plotter.

She could be YOURS ...

“Taloha is a well equipped and proven 47-foot performance cruiser combining sleek European styling with true offshore capability. Designed for long-distance cruising with excellent storage above and below deck, she is robust with a stiff 'epoxy' hull, L-shaped keel, and navigation aids suitable for coastal and bluewater passage making.

The desirable owner's version layout includes a bright, comfortable and extremely spacious saloon with separate dining and lounge spaces, a luxurious master suite with island bed and private head. Her two comfortable aft cabins share a large central head. The galley is thoughtfully arranged with ample storage, quality appliances, and Corian surfaces, making life aboard both stylish and functional.

Her epoxy construction ensures a strong, responsive hull, complemented by new standing and running rigging, a self-tacking jib, electric winches, and centralised controls that make short-handed sailing effortless. The large, uncluttered cockpit doubles as a fantastic entertaining space, with upgraded canvas, a folding table, wide seating, and an inviting swim platform.

'Taloha' is a beautiful yacht blending sleek hulls lines, flush teak decks and a clutter free open cockpit with a modern, spacious and light-interior. Equipped with thoughtful and stylish upgrades to enhance your liveaboard experience, 'Taloha' promises years of satisfaction for coastal or extended cruising and would be ideal for a family or liveaboard couple.
