

Beneteau Swift 42

This 2008 Beneteau Swift Trawler 42 is in very good condition throughout and is loaded with many options.

It presents exceptionally well and reflects the care and attention given to it by its present owner. The vessel has had many upgrades and updates during the most recent years of ownership and represents very good value in the current market for a boat of its type and class.

The Swift Trawler 42 is a very sought after trawler style vessel.

With a very seaworthy hull and plenty of living space, the Swift Trawler 42 is designed for the ocean and life at anchor.

The first thing to appreciate on this ST42 is the ease of movement about the decks. The interior space is very well used and avoids the negative impact of squeezing too much into a space. High hull sides, combined with the upper-deck overhang, provide excellent protection for the side decks and cockpit.

An intrepid passage maker, the Swift Trawler 41 is truly seaworthy, a feature that characterizes long-distance cruisers. It can be used for a wide range of family boating programmes, accommodating up to 8 people. With forward galley, lots of storage spaces and a pleasant atmosphere, the Swift Trawler 41 will appeal to anyone whose sea trips revolve around leisure activities and enjoying good company.

Her hull has been designed to optimize behaviour and performance.

The slender flared bow of the Swift Trawler 41 cuts through the sea wonderfully resulting in good fuel consumption and optimal efficiency, with 5 L per nautical mile, from 10 to 23 knots. Designed for 2 x 300 HP engines, her 12.52-metre long semi-planing hull reaches peak speeds of 22 knots.

Her large 1,500 L fuel tanks and 640 L freshwater tanks give her a great cruising range. Averaging 16 knots on a cruise, she has a range of roughly 180 nautical miles

Designed for long crossings, the Swift Trawler 41 has generous living spaces and cleverly designed fittings.

With three cabins, she has a capacity of up to 7 passengers on a cruise

Her design is practical with plenty of storage space for a wide range of leisure equipment for children and adults, such as kayaks, paddle boards and bikes.

The large double owner cabin is located in the forward peak and has two separate wet rooms: wash basin and marine toilet to starboard.
